

For space-saving board-to-board, board stacking and wire-to-board applications in 2.00mm x 2.00mm grid, 3M has one of the broadest offerings on the market today.

- 3M™ Pin Strip Headers and Boardmount Sockets offer a cost effective way to stack boards in a variety of stack heights.
- 3M™ Low Profile (or Box) Headers feature a four-wall, shrouded housing to protect against pin damage. For wire-to-board applications.
- 3M™ IDC Wiremount Sockets can be terminated quickly to 1mm pitch flat ribbon cable to make custom jumpers and cable assemblies.
- For off-the-shelf, ready-to-use solutions, 3M™ Molded Cable Assemblies offer robust and reliable connections.
- 3M™ Latch/Eject Headers feature a protective housing with latches for securing the socket of a mating cable assembly.
